III. TIMED ITEMS –

A. 5:30 P.M. PUBLIC HEARING – BOARD OF REVIEW –

This being the time, date and place set, with all notices published and posted as required by law, Acting Mayor Dingmann opened the 2018 Board of Review hearing regarding property valuations in the City of Litchfield, where citizens had the opportunity to present and appeal, at 5:30 p.m.

An attendance list is on file.

Meeker County Assessor Jason Jorgensen addressed the Local Board of Review (City Council) and citizens on behalf of the City of Litchfield. He reported that the changes made last year came in at 98% and so no changes were made on residential market values adding there were also no changes on the commercial side. Jorgensen added while there were a lot of sales, the market remained flat.

Meeker County Appraiser Scoblic discussed the sales which took place including the good sales, tax forfeitures, and sales that were rejected. He said the overall median ratio is 98.42% which is very good. He explained that by Statute, the valuations have to be between 90-105% of what the property would sell for.

Acting Mayor Dingmann asked if the City was down in the number of sales. Meeker County Appraiser Scoblic responded the sales were basically around the same.

Following are property owners who were not present but requested the Meeker County Assessor's Office review their properties:

1. Samantha Miller – 502 E 2nd St – Parcel No. 27-1622-000 – Ms. Miller requested the Meeker County Assessor's Office view their property for a current valuation.

Meeker County Assessing staff conducted an interior and exterior review of the property and recommended changing the effective year of the house to 1950 instead of 1955 and the garage to 1955 instead of 1975.

Meeker County Appraiser Scoblic recommended decreasing the 2018 EMV from \$101,800 to \$84,800 for Parcel No. 27-1622-000 based upon the results of viewing the property.

Acting Mayor Dingmann asked if the property owner had been contacted with this information. Meeker County Appraiser Scoblic responded that yes they had been contacted and they were fine with it.

After review, it was moved by Council Member Loch, seconded by Council Member Allen, to decrease the 2018 EMV from \$101,800 to \$84,800 for Parcel No. 27-1622-000. Upon roll call vote, all members present voted aye whereupon the motion carried.

Acting Mayor Dingmann recused himself from the table declaring a conflict of interest on the next two appeals. Council Member Loch took over the Local Board of Review and Equalization process.

2. Quail Investments – 802 2nd St E – Parcel No. 27-2157-000/910 2nd Street E – Parcel No. 27-2383-000. The property owner requested the Meeker County Assessor's Office review the estimated 2018 Market Value based upon the significant increase for both properties.

Meeker County Assessing staff conducted an interior and exterior review of the property and recommended no change be made to the 2018 market value based on the condition of the buildings at both locations. He said they fall right in line with everyone else.

Meeker County Assessor Jorgensen recommended no change be made to the 2018 EMV for Parcel No. 27-2157-000 and Parcel No. 27-2383-000 based upon the results of viewing the properties.

Council Member Miller asked if the property owner was okay with it and what their concern was.

Meeker County Assessor Jorgensen responded that they (the property owner) felt the market value was too high this year and were contesting that value.

April 16, 2018

Council Member Loch inquired as to when the last time these properties were assessed referring to both properties located at 802 and 902 2nd Street East.

Meeker County Assessor Jorgensen responded they have been flat for a while, adding that it has been at least 4 or 5 years since there has been any change in the market value for either one of them. He explained that they had done an apartment survey with about a 30% response and based upon the rent value and information received back that determined the values.

Council Member Kotelnicki asked if other apartments went up this much too.

Meeker County Assessor Jorgensen responded some went up more, some went down; it went both ways. He said based on rent charged, they picked a median number and arrived at a value that way.

Council Member Loch clarified that both residential and commercial values are supposed to get as close to 95% as possible and with the tools and instruments the Meeker County Assessing staff has that they feel they are at 95%.

Meeker County Assessor Jorgensen responded yes.

Council Member Kotelnicki asked if these were all one bedrooms in the apartment complex.

Meeker County Assessor Jorgensen responded that one complex has one bedroom and the rest are two bedrooms. The other complex has a couple one bedrooms and the rest are all two bedrooms.

Council Member Allen inquired if the homeowner understands it's been 4-5 years since it's been flat.

Meeker County Assessor Jorgensen said the property owner was aware but still wanted to pursue the appeal.

Council Member Kotelnicki commented that when she read the information she thought it took a big jump but she had been unaware that it had been 4-5 years since it was increased.

Council Member Loch expressed concern whether or not this raises a flag with the State since there was this big of disparity over this amount of time.

Meeker County Assessor Jorgensen said typically it's done on a yearly basis however because of timing when he started surveys were not sent out and prior to that it had been a few years since that had been done, adding that they are trying to play a lot of catch up.

After review, it was moved by Council Member Loch, seconded by Council Member Miller, that no changes be made to the 2018 EMV for Parcel No. 27-2157-000. Upon roll call vote, all members present voted aye whereupon the motion carried.

Meeker County Assessing staff said it was the same issue with the property located at 910 2nd Street East.

Council Member Allen inquired if some of the other properties went up this much too.

Meeker County Assessor Jorgensen responded that yes there was one on the south side of town that went up \$500,000. He added that the property sold for one million dollars and they added \$500,000 based again on the study that they did.

After review, it was moved by Council Member Miller, seconded by Council Member Kotelnicki, that no changes be made to the 2018 EMV for Parcel No. 27-2383-000. Upon roll call vote, all members present voted aye whereupon the motion carried.

Acting Mayor Dingmann asked if there was anyone in the audience wishing to speak. With no one wishing to speak further concerning the Local Board of Review and Equalization, Dingmann explained that the Council would continue with the meeting and that the public hearing would be kept open until 6:30 p.m. as published.

The Council reconvened at 6:30 p.m. and no additional comments were heard and the public hearing was closed at 6:30 p.m.

B. 5:30 P.M. PUBLIC HEARING – ANNEXATION –

This being the time, date and place set, with all notices published and posted as required by law, Acting Mayor Dingmann opened the public hearing at 5:49 p.m. to consider a petition for annexation filed by Ray Doering, Michael Doering, and Eric Doering of Doering Land Company, LLC.

An attendance list is on file. There were no written comments.

City Administrator Cziok explained that this was the first step of many in the process as the property is potentially developed over time. He said this pertains to the annexation part only and the purpose for the annexation is to extend utilities to this parcel and development or future development may or may not happen. The next step moving forward would be development of a preliminary plat if the property is to be developed which would go before the Planning Commission. Cziok added the process tonight is the first reading of an ordinance.

Acting Mayor Dingmann inquired about the schedule to reimburse the township for taxes as to whether or not the reimbursement would be the value at the time of annexation or after improvements. City Attorney Wood responded the taxes are reimbursed at the value at the time of annexation.

Council Member Kotelnicki commented that she wondered the same thing and asked if this was standard in the Statute or something arbitrarily agreed upon with the township. City Attorney Wood responded there is some flexibility with that but this has been the policy in the past between the townships and the City.

Acting Mayor Dingmann asked if there was anyone wishing to speak concerning the proposed annexation. There were no other comments and the public hearing was closed at 5:53 p.m.

After review, it was moved by Council Member Kotelnicki, seconded by Council Member Loch, to adopt the following:

A. DISTRIBUTED GENERATION –

City Administrator Cziok addressed the Council concerning adoption of a policy and rules regarding distributed generation within the City’s electrical utility. He explained that distributed generation refers to individually owned generation facilities primarily solar or wind systems and adoption of this policy and rules allows for local control of decisions regarding facilities as such. He said the City does not have authority to not allow these facilities but with policies and rules in place the City can apply the rules equally. Cziok shared that Southern Minnesota Municipal Power Agency (SMMPA) highly recommends the adoption of a policy and rules as such, adding that SMMPA advises engaging with an attorney specializing in this area for further assistance if necessary. He added that once the resolution was passed the next step would be developing a solar power ordinance.
